

Mercedes-Benz V250 d 4MATIC (extra long) – LUXURY MINIVAN (MPV)

Amenities

The V-Class – and particularly the range-topping V 250 BlueTEC 4MATIC model – redefines the meaning of MPV.

It combines a space concept for up to seven persons and exemplary functionality with the typical strengths of Mercedes-Benz – from the feeling of quality to comfort, from efficient driving pleasure to safety.

High-quality materials, a stylish colour scheme, extremely fine attention to detail and a design idiom that is both progressive and sensuous convey a perceived quality that stands out within the segment.

The feel-good atmosphere is complemented with the lowest noise level in the segment.
